Hi Ellen,

I wanted to let you know about an incident I witnessed driving to work on Friday, September 28 at around 8:15-8:20 AM. A vehicle turning left (heading west) on Olympic from L.A. Live Way hit a person that was crossing the street under the 110 hwy bridge. There was a loud bang when the vehicle initially hit the person's body, followed by more noise (which was sadly the car running over the crossing persons' legs). All vehicles that were turning on the corner of LA Live Way and Olympic were stopped to make sure the injured person was okay and even being at a full stop on that corner it was very dark under the bridge and nearly impossible to have spotted the crossing person walking.

The driver, did, immediately stop and run to the injured person to make sure he was ok—the injured person was gesturing from the ground he was okay, vehicles then slowly started to proceed driving and eventually the police showed up.

Just thought you would like to know.

Thanks!

Lulu Woldemariam
